Abstracts of current literature, 114, 221, 332, 558, 671, 795, 908, 1023, 1133, 1246, 1343
Acid formation, rate of; some new concepts concerning role of sugar in dental caries, 616
neutralization or destruction, rate of; some new concepts concerning role of sugar in dental caries, 618
Acidogenic bacteria, mouth-inhabiting, present concept of cellular and environmental influences on: review, 1104
ACTH and cortisone, clinical appraisal of, as therapeutic agents in dental medicine, 25
Actinomycosis and fracture of mandible, 809
Aureomycin in treatment of, 909 (Abst.)
clinical pathology of tongue, 106
of cervicofacial area, treatment of, by lymph nodular extract, 559 (Abst.)
of jaw treated with terramycin, 1182
treatment of, with streptomycin, 911 (Abst.)
with osteomyelitis of alveolar process, 1056
Air Defense Force in Japan, headquarters, 1241 (P.N.I.)
Airbrasive technique, Xylocaine in conjunction with; Xylocaine, 407
Algesia, buccofacial, 1136 (Abst.)
Allergic rhinitis resulting from focal infection, 223 (Abst.)
Alveolar bone regeneration, 117, 225
structure of pulp, periodontal membrane, and; microscopic studies of dental tissues; I. electron microscopy of tooth structure, 532
process, actinomycosis with osteomyelitis of, 1056
Alveolectomy; consideration of some of problems concerned with management of patients requiring surgery, 1025 (Abst.)
Alveoloplasty with ridge extensions on lingual side of lower jaw to solve problem of lower dental prosthesis, 340
Ambulatory patients, restraint of, in general anesthesia, 1099
Ameloblastoma of mandible, 787, 823
Ameloblasts, basement membranes of; their significance and appearance, 795 (Abst.)
American Academy of Dental Medicine announces annual meeting, 330, 444
Mid-Winter Meeting, 1132
elects new officers, honorary members and fellows; adds two new sections, 794
of Implant Dentures organized, 793

proceedings of Fifth Annual Meeting of, Stevens Hotel, Chicago, February 4, 1951, 177
Association of Endodontists, 82
Board of Oral Pathology, 557
Surgery and American Society of Oral Surgeons, members of, 331
Ammoniated dentifrice, high-urea: caries reduction through four years' home use, 155
Anaesthesia, endotracheal, some anatomic considerations of infant larynx influencing, 1024 (Abst.)
Anaesthetic agents, newer, in children, with special reference to trichlorethylene and Kemithal, 115 (Abst.)
Anatomic considerations, some, of infant larynx influencing endotracheal anaesthesia, 1024 (Abst.)
relationships, some, of face, 172
Anatomical considerations; tumors of maxillary sinus, 1253
Anatomy and physiology, 114 (Absts.)
surgical, 172
surgical, of temporomandibular joint, contribution to, 114 (Abst.)
trigeminal nerve, 913
Anemia, aplastic: initially observed in dentist's office, 560 (Abst.)
Anesthesia, dental, intravenous use of Nembutal-Pentothal Sodium combination with nitrous oxide and oxygen for, 43
general, restraint of ambulatory patients in, 1099
local, 446 (B. rev.)
nitrous oxide and oxygen, pethidine as adjuvant to, 221 (Abst.)
of inferior alveolar nerve, measurements of special significance in connection with, 966
rationale for electrosurgery, 1166
Anesthesiology, 115, 221, 1024, 1346 (Absts.), 43, 281, 403, 728, 966, 1099, 1213, 1291

Anesthetic agent, local, experimental and clinical evaluation of Unacaine Hydrochloride as, 1228
explosion dangers in dental operating rooms, 989
topical, in dentistry, Xylocaine ointment as; new fields of application for Xylocaine as applied to dentistry, 281
Angioma; clinical pathology of tongue, 103
Angioneurotic edema of lip, 41
Ankylosis of jaw, correction of, 796 (Abst.)
of right temporomandibular joint, 241
Anlage tumors about mouth, 993
Antibiotic bacitracin, description of: its topical use in treatment of Vincent's infection, 717
Antibiotics, bacteriologic evaluation of compatibility of, with solutions of other therapeutic agents, 1096
sulfonamides and, comparative review of literature based on 96,075 cases treated with; clinical toxicity of antibacterial drugs, 347
treatment before era of, of case of prolonged unusual cellulitis of face and neck following extraction of first maxillary molar due to leptothrix, 1173
Antihistamine compounds, four, antimicrobial activity of, 1000
Apicoectomies, why failures in? 1026 (Abst.)
Arthritis; facial pain, 594
rheumatoid, intracutaneous tests using filtrates prepared from pathologic pulps of human teeth, with special reference to, 59, 199, 315, 418, 536, 646, 752, 877
with acute temporomandibular joint symptoms; clinical appraisal of ACTH and cortisone as therapeutic agents in dental medicine, 26
Arthroplasty, temporomandibular, in treatment of prognathism, 798 (Abst.)
Aspiration technique; biopsy techniques in oral surgery, 1035
in exodontia and oral surgery, 946
Atomic bomb radiation and oral regions, 179
Aureomycin and terramycin, synergistic effect of saliva with, 782
in treatment of actinomycosis, 909 (Abst.)
mucocutaneous-ocular syndrome; report of case treated with, 911 (Abst.)
oral, B complex avitaminosis with, 279

B

B complex avitaminosis with oral Aureomycin, 279
Bacitracin and Gelfoam: combined use in dentistry, 562 (Abst.)
antibiotic, description of: its topical use in treatment of Vincent's infection, 717

Basal cell carcinoma of lip, 1064
Behcet's syndrome; ocular-oral syndromes, 259
Bell's palsy and its treatment, otological concept of, 797 (Abst.)
pathology of, 1023 (Abst.)
Betel chewing, effects of, on oral tissues, oral characteristics of Guamanians including, 762, 884, 1004
Beth Israel Hospital, periodontia course, 219, 557, 667, 794, 907
Biochemistry, comparative, of single cells, proteins are fit subject for study in; protein deficiencies via soil deficiencies; I. ecological indications, 372
Biopsy examination; oral neoplasms, 17
procedure: plea for better case histories, 1200
techniques in oral surgery, 1034
Biosynthesis, plants', of proteins, organic compounds, as well as inorganic ions, suggest their absorption by plant roots and service in; protein deficiencies via soil deficiencies; II. experimental evidence, 494
Blindness after mandibular injection, 115 (Abst.), 334
Blood, human, enzyme studies on; isolation and characterization of thromboplastic cell and plasma components, 223 (Abst.)
thromboplastic plasma component and other coagulation factors in hemophilia, 332 (Abst.)
Bone regeneration, alveolar, 117, 225
Bones, malar, osteitis of, 1133 (Abst.)
unilateral fracture of right maxilla and, 1047
Bowen's dermatosis; clinical pathology of tongue, 104
Breathing capacity, maximum, test; pulmonary function tests and their significance, 400

C

Cancer coordinators; development of cancer instruction in dental school, 1031
instruction, development of, in dental school, 1028
of respiratory system, 597
of tongue, end results of treatment of, 910 (Abst.)

Carcinoma, basal cell, of lip, 1064
clinical pathology of tongue, 95
metastatic, of mandible, 185
oral characteristics of Guamanians including effects of betel chewing on oral tissues, 891
primary epidermoid, of submaxillary gland, 961
Cardiovascular diseases; preanesthetic evaluation of oral surgical patient, 729
preoperative management of oral surgical patient in disease, 932
Caries activity, dental, lack of relationship between salivary lactobacillus counts and, 210
dental, bacteriology of, 1223
in Guamanians; oral characteristics of Guamanians including effects of betel chewing on oral tissues, 775
some new concepts concerning role of sugar in, 615
reduction through four years' home use; high-urea ammoniated dentifrice, 155
Carious tooth surfaces, structure of; microscopic studies of dental tissues; II. optical microscopy of tooth surfaces, 642
Case histories, biopsy procedure: plea for, 1200
Cautery; rationale for electrosurgery, 1166
Celiac syndrome and pancreatic insufficiency, nutritional disturbances in childhood, with particular emphasis on, 632
Cell; general adaptation syndrome as basis for unified theory of medicine, 411
Cellular and environmental influences, present concept of, on mouth-inhabiting acidogenic bacteria: review, 1104
Cellulitis, prolonged unusual, of face and neck, treatment before era of antibiotics of case of, following extraction of first maxillary molar due to leptothrix, 1173
Central nervous system, diseases of; preanesthetic evaluation of oral surgical patient, 731
"Cetab," effect of adding, to whole saliva; studies on defense mechanisms of mucous membranes with particular reference to oral cavity, 524
Chemical constitution; bacteriology of fusobacteria, 1089
Cherubism—familial fibrous dysplasia of jaws, 292
Child, controversial lesion of jaw in, 74
Childhood, common stomatitides of, 384
nutritional disturbances in, with particular emphasis on celiac syndrome and pancreatic insufficiency, 632
Children, dentistry for, 1243 (B. rev.)
Children's hospital, clinical laboratory in, 625
Chloramphenicol, serum concentrations of, following intravenous and intramuscular administration, 559 (Abst.)
Chondromyxoma of mandible, 816
Choroiditis caused by palatally impacted unerupted maxillary rudimentary supernumerary cuspid, 861
Cincinnati Dental Society, 84, 220, 331
Cleft palate, at which age should it be operated, 1346 (Abst.)
combined use of push-back and pharyngeal flap procedures in management of complicated cases of, 133
Climatic pattern, pattern of potential protein by crops is expression of soil development according to; protein deficiencies via soil deficiencies; I. ecological indications, 380
Clinical dental roentgenology, 1244 (B. rev.)
oral pathology, studies in, 74, 214, 325, 434, 549, 659, 787, 895, 1012, 1124
